COS30045 Data Visualisation

Class 7

Agenda

- Demonstration 2
- Data Visualisation Design

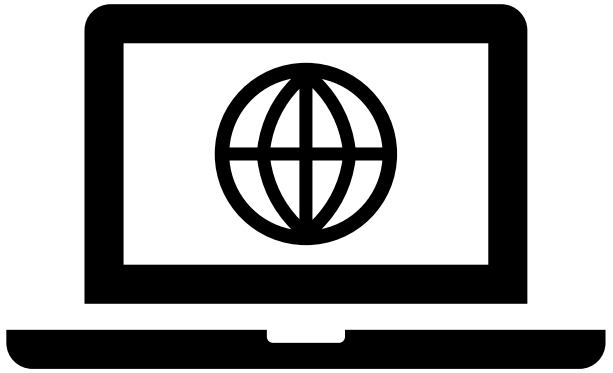

Time goes faster and you have more fun with friends!

- introduce your self to someone you don't know while waiting for class to start!

Exercise Demonstration 2

Be prepared to demonstrate and answer questions about:

- manipulation of SVGs
- binding data to SVGs, reviewing DOM, writing data to console
- loading data into D3 from csv files
- construction of basic chart types (e.g., bars, scatter, line, pie, histogram)
- scaling and axis construction
- interactions (tooltip/filter)

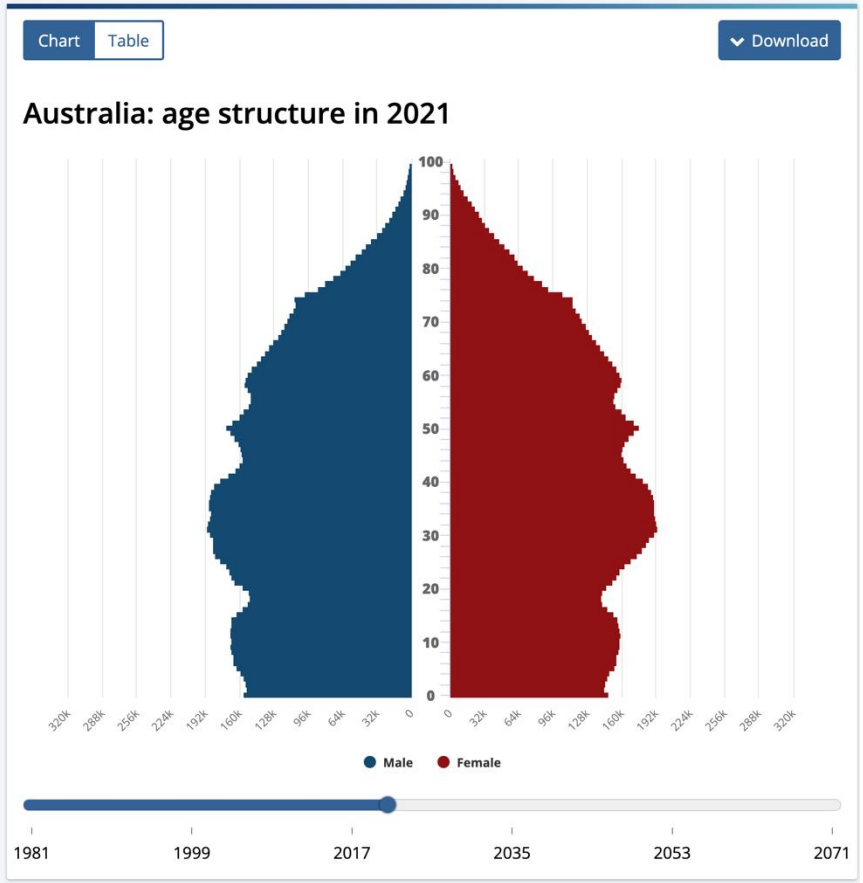

SWINBURNE UNIVERSITY OF TECHNOLOGY

Exercise 7 Visualisation Design

For each chart answer the following questions:

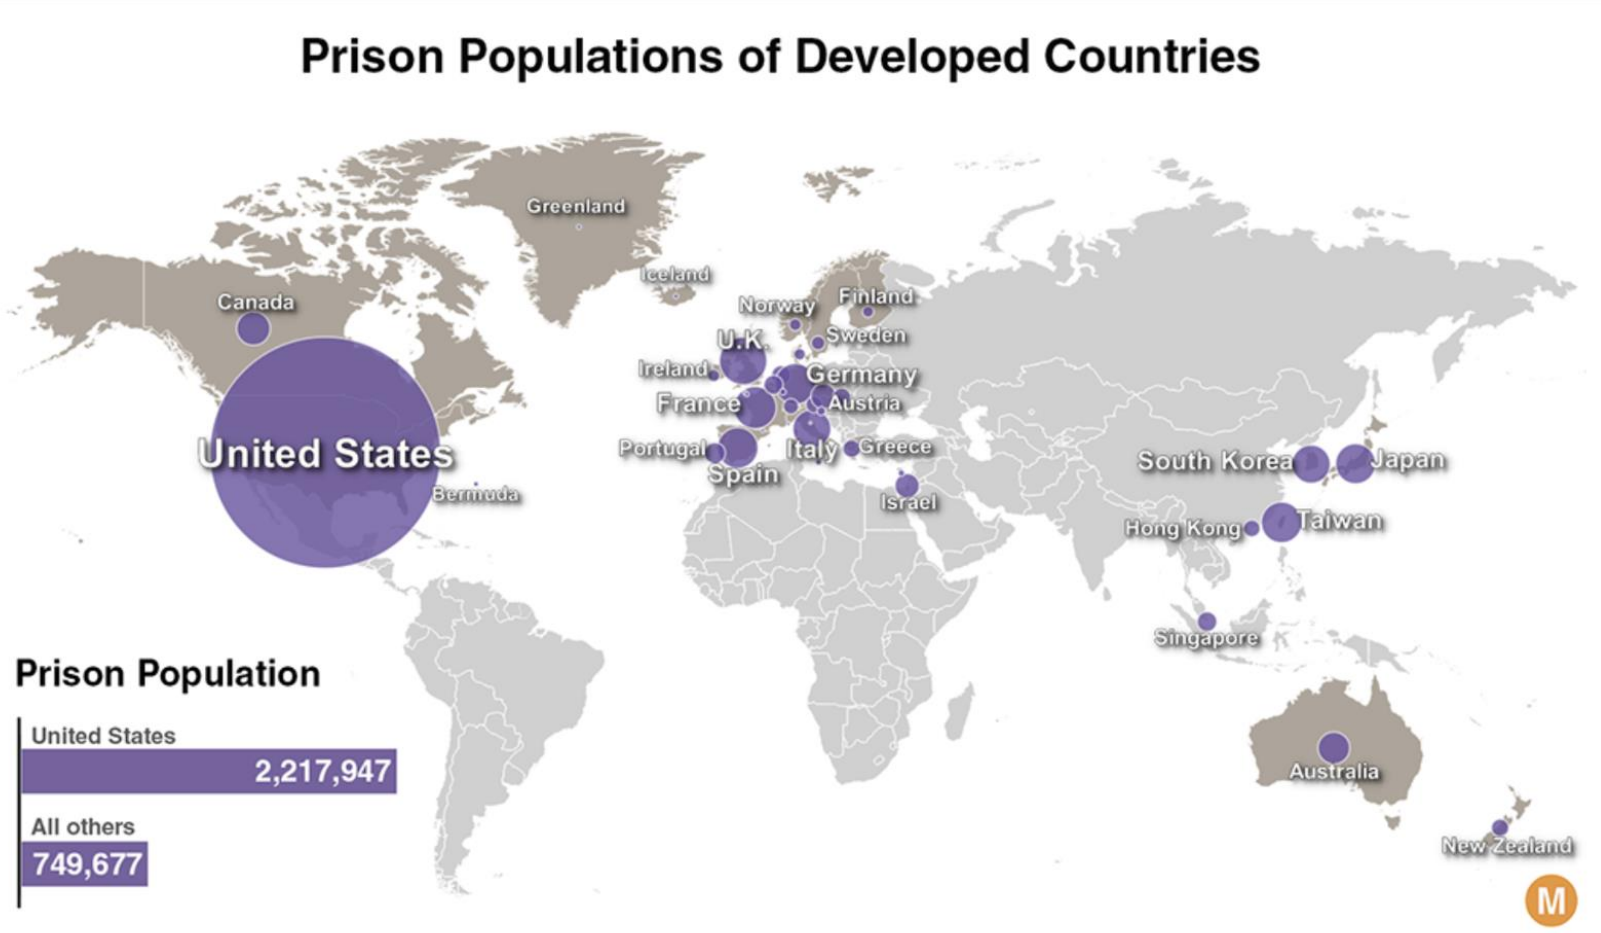

1. What appears to be the purpose of the chart?
2. What kind of chart is this?
3. What data does it appear to be encoding and how is it encoding it?
4. Are there any interactive features? If so, what are they and how are they used?
5. What features does it use to try get its message across?
6. Which design do you think is best and why?
