COS30045 Data Visualisation

Class 3

Agenda

- Communicating data insights

Time goes faster and you have more fun with friends!

- introduce your self to someone you don't know while waiting for class to start!

- • • • • • • • • •
- • • • • • • • • •
- • • • • • • • • •

Visualisation Critique

Aim: Critique visualisation according to data visualisation guidelines

Due: Week 5 (just **before** Easter)

Structure

- Introduction
- Data Processing and Data Representation
- Visualisation Design
- Recommendations

Must be on specified visualisation
(see Canvas for this semester's visualisation)

Website being Critiqued
changes every semester
– Check Canvas for
details

Check requirements and bring questions to class
next week!

.
.

Exercise 3.0 Communicating Data Insights (follow Canvas guide)

1. Identify audience and what they want to know
2. Refine your visualisations and storyboard the user's experience. Visualisations can be made with any tool/technology and are not expected to be interactive (i.e., can be screenshot).
3. Start repository for Exercise 3 in the COS30045 Classroom based on Exercise 0.2 website
4. Add visualisations and story to your website
5. Write up your README.md to provide information about the data and your AI declaration.

Figure 1.2 Example storyboard

Demonstration 1

Canvas Submission (midnight before your Class)

- Link to GitHub to Exercise 0.2 (i.e., website code showing evidence of frequent commits) (submit link as a 'comment')
- Link to Exercise 0.3 (website hosted on Mercury) (submit link as a 'comment')
- GenAI declaration for Exercise 0.2
- Annotated KNIME workflow file with data (identified with your name in file name)

Check rubrics

Demonstration 1 Interview

Make sure you have all Week 0-3 Material available.

Be prepared to answer questions about:

- GitHub
- Web Programming
- Interpretation of Data set
- Data processing
- Using KNIME
- Data chart design

Check rubrics

Next Week

Exercise 4: Introduction to D3

- DOM and SVG
- Data binding with D3
- Importing data into D3
- Making a D3 Bar chart
